2846 "Solid Comfort" Spring Bed, for bedstead, 4 ft. 2 ins., 4 ft. 4 ins. and 4 ft. 6 inches wide, 130 springs.....	3 75

The "Solid Comfort" Spring Bed is comparatively new, having been introduced within the last three years. But its merits have placed it ahead of all other styles. It has 117 to 130 fine Bessemer steel springs, standing very near together and all connected in such a manner as to produce a continuous yielding surface, which conforms perfectly to the shape of the body in any position. We invariably ship them as represented in cut marked "packed for shipment." They are easily and quickly set up.

Be sure to give size of bed when ordering Mattresses or springs. Our mattresses are covered with heavy ticking. There are mattresses offered for sale made to represent those we sell, but the filling, instead of being wool, is cotton sweepings. Ours are the best of their respective kinds.

The Elgin Watch Co. have discontinued the manufacture of M. D. Ogden, W. H. Ferry, J. T. Ryerson and Chas. Fargo movements, and make four movements without name, excepting "Elgin National Watch Co.," thereby opening a way to fraud by unscrupulous dealers; we therefore advise our trade to purchase only such of their movements as bear, in addition to the word "Elgin," one of the four names above quoted, viz.: G. M. Wheeler, H. H. Taylor, H. Z. Culver and B. W. Raymond.

NOTICE—All of the gentlemen's Waltham and Elgin watches (excepting 2 oz. cases) will be furnished in the new patent open-faced silver case without extra charge, if requested. The crystal cannot be broken with ordinary usage. We discontinue the quotations of cheap watches, as too much is expected for the money.

Patent Seamless Back Shoes, continued.

Please note the following: The right to sell the Patent Seamless Back Shoes having been sold for Wisconsin to other parties, we positively cannot send them into that State.

All the goods under the head of "Custom-made" are warranted. This is not an empty word with us, as is often the case with irresponsible houses. We mean by "warranted" just this: If at any time a pair of warranted Boots or Shoes give out without just cause, report the fact to us, and we will pay for the repairing of them, replace them with others, or refund the money paid for them, according to the circumstances of the case. We find it quite impossible to describe in an intelligent manner, without occupying too much space, the different styles of workmanship, quality of leather, etc., embraced in our Boot and Shoe department. We therefore have not undertaken the task. We have endeavored to give each particular pair a comprehensive name, and, as a rule, think the name and price attached will suggest the style and quality. In case of any misunderstanding, our correspondence department may be applied to and an immediate reply elicited. The same may be said regarding any other article or subject.

TRUNKS, VALISES, &c.

MANUFACTURED EXPRESSLY FOR

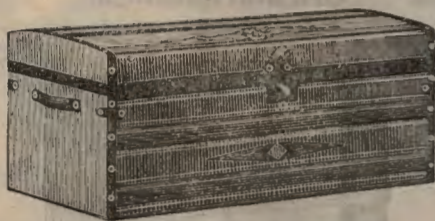

Montgomery Ward & Co.

We desire to state that owing to the exorbitant charges imposed by the railroad companies on trunks, we shall in future box all trunks ordered of us by freight, and make an additional charge of one-half the cost of boxing, an item of 20 to 30 cents. The purchaser will understand that this extra cost he more than doubly saves in reduced freight charges, as the boxing changes the grade of freight on trunks from triple first-class to first or third class. Trunks are shipped by express at the same proportionate rates as packages, therefore we do not box trunks ordered by express.

We take pleasure in calling attention to our Oriental Trunks. These trunks are barrel stave top, with slats lengthways and crossways, producing a compound brace that effectually prevents the displacement of the joints.

Please note carefully the descriptions under each trunk, as they are intended to be exact.
